

E-Books

The screenshot shows the IGLibrary search results page. The browser address bar displays 'portal.igpublish.com/iglibrary/search'. The page header includes the IGLibrary logo, a search bar with the text 'Enter search terms', and a 'Search' button. Below the header, there are navigation links: 'BISAC category', 'Advanced search', 'Search history', 'Recent view', 'Saved list', 'User guide', 'Personal account', and 'Sign out'. The main content area shows search results for 'Results 1 - 10 of 372 (1.141 seconds)'. The first result is 'Proceedings of the twentieth annual ACM-SIAM symposium on discrete algorithms' by Mathieu, Claire, published by Society for Industrial and Applied Mathematics in 2009. The second result is 'Generalized inverses of linear transformations' by Campbell, Stephen L.; Meyer, Carl D., also published by Society for Industrial and Applied Mathematics in 2009. Each result includes a book cover image, the title, author, publisher, year, language, and page count. There are buttons for 'Read', 'Read on App', and 'Add to saved list' for each book. The left sidebar contains a 'BISAC category' list with links to various categories like Mathematics, Science, Computers, etc. The bottom of the page shows a Windows taskbar with the system tray displaying '28°C Mostly cloudy' and the date '15-10-2024'.

This screenshot shows a different set of search results on the IGLibrary website. The browser address bar is the same. The search results section shows 'Introduction to the numerical analysis of incompressible viscous flows' by Layton, William, published by Society for Industrial and Applied Mathematics in 2008. The book cover is visible on the left. The description of the book is provided, along with buttons for 'Read', 'Read on App', and 'Add to saved list'. The page also shows the same navigation links and BISAC category list as the previous screenshot. The Windows taskbar at the bottom shows the system tray with '28°C Mostly cloudy' and the date '15-10-2024'.
