

Visit of Wisdom Convent School Fazilka, Punjab

On World's Environment Day, 40 students of Wisdom Convent School Fazilka, Punjab visited the Centre of Sustainable Technologies for Rural Development of Department of Biotechnology and Bioinformatics. The students were accompanied by three faculty members and coordinator Mr. Paramjit Singh. The students were from sixth to tenth class and were very curious to know about functioning of various equipments. Prof. Sudhir explained about renewable energy and showed them movable biogas reactor. Its' fabrication and functioning was explained to them. Visit to departmental labs was also conducted. Various instruments of High End Instrumentation lab like HPLC, Gene Gun, GC, Fluorescent Microscope were shown to them. Briefing on functioning of these instruments including PCR machines was elaborated to them, Concept of Vaccines and Microbes preservation at ultra low temperature was also explained to them. They also visited Tissue culture facilities of the department. Students asked numerous questions and Dr. Sudhir congratulated their teachers for building up their good foundation and developing their inquisitive nature. Mr. Paramjit Singh also suggests follow up sessions of teaching practices for faculty in near future. University hosted lunch for them and Dr. Ankush Tanta coordinated their visit to University and Mr. Ismail and Mr. Baleshwar helped them in equipment demonstrations.
