**Dear Graduating Batch of 2021,**

Hope you are keeping safe and staying healthy.

We have been doing pre-placement training for all final year students from the last many years. And this year we are planning to again organize **Online Aptitude Training by Mr. Eldo Ranjeet for your batch.**

The Aptitude Training program aims to help the students to clear the selection tests of various mass recruiters such as Infosys, Cognizant, Wipro, etc. The topics that are covered are Quantitative Ability, Logical Reasoning & Verbal Ability.

**Due to COVID 19, it will be conducted virtually using the platform of Google Meet.**

Each student will undergo Classes for about 18 Hours in batches of about 50 students per batch depending on the number of registrations.

We will share the schedule of the training programme later.

**A fee of Rs 300/- (Rupees Three hundred) per student will be charged. And after registering we will tell you when to submit your fee.**

**The fee is Non-Refundable.**

**This Aptitude training is 100% Voluntary. However, we encourage you to participate. It will help you in placements.**

**Kindly register before 19th July 2020**

The 5 female inventors

- Joyce Chen**  
Chen's patent is for a flat bottom wok with a handle, also known as a stir fry pan. Her patent, however, only hints at Chen's impact on the American culinary scene; Chen pioneered the all-you-can-eat Chinese buffet style, and popularized Northern style Chinese food.
- Patricia Bath**  
Source: Scholastic  
Have you ever had laser eye surgery? You have Patricia Bath to thank for that. The first African American to complete a residency in ophthalmology in 1973, Bath invented the Laserphaco Probe, which uses laser technology to treat cataracts.
- Stephanie Kwolek**  
Kevlar has many applications: bullet-proof vests, tennis rackets, tires, hurricane safe rooms, etc. Stephanie Kwolek was a chemist at DuPont when she invented the synthetic poly-paraphenylene terephthalamide, a.k.a. Kevlar.
- Ann Makosinski**  
One of the younger inventors on this list, Makosinski created the "Hollow Flashlight" which uses a thermoelectric effect to convert body heat into electricity to power LED bulbs. She also appeared on Forbes 2017 "30 Under 30" list.

The workshop was ended with the vote of thanks by IPR cell co-coordinator Dr. Shruti Jain.

## **Entrepreneurship Workshop 2020**

The Technology Incubation Entrepreneurship and Development Cell at Jaypee University of Information Technology, Solan organized an Entrepreneurship Workshop on the weekend of 21st and 22nd November, 2020.

A two day event, with 80 participants, the workshop was a way to introduce college students to the various aspects of the startup world. Participating students were briefed about topics like Business Development, Marketing, Finances and Design Thinking through presentations and sessions hosted by the members of the E Cell. At the end of the first day, following the sessions, an event was organized wherein participants were teamed up with one another. The teams were then asked to come up with an idea which they felt could eventually lead to a startup. Along with pitching their ideas, teams had to build their own Business Model Canvas - a representation of various parts of a startup, from the Partners, Resources, Marketing and Revenue Streams

The second day started early at 11 am with a brief session for the participants on how to pitch any idea and make presentations for the same. The pitches commenced at 3:30 PM wherein each team presented their idea and the related Business Model to the panel. Each pitch lasted 10 minutes including questions put up to the teams regarding their startup idea by the panel

The top two teams whose ideas and presentations stood out were -

1. Siddharth Kuthiala, Khushi Chabra, Archit Kaushal, Shikhar Khandelwal
2. Ishan Sharma, Paras Sharma, Aarhan Ali Khan, Puneet Katoch

The event ended with positive feedback from the attendees on the entire two day learning experience.

# COLLEGE TO CORPORATE

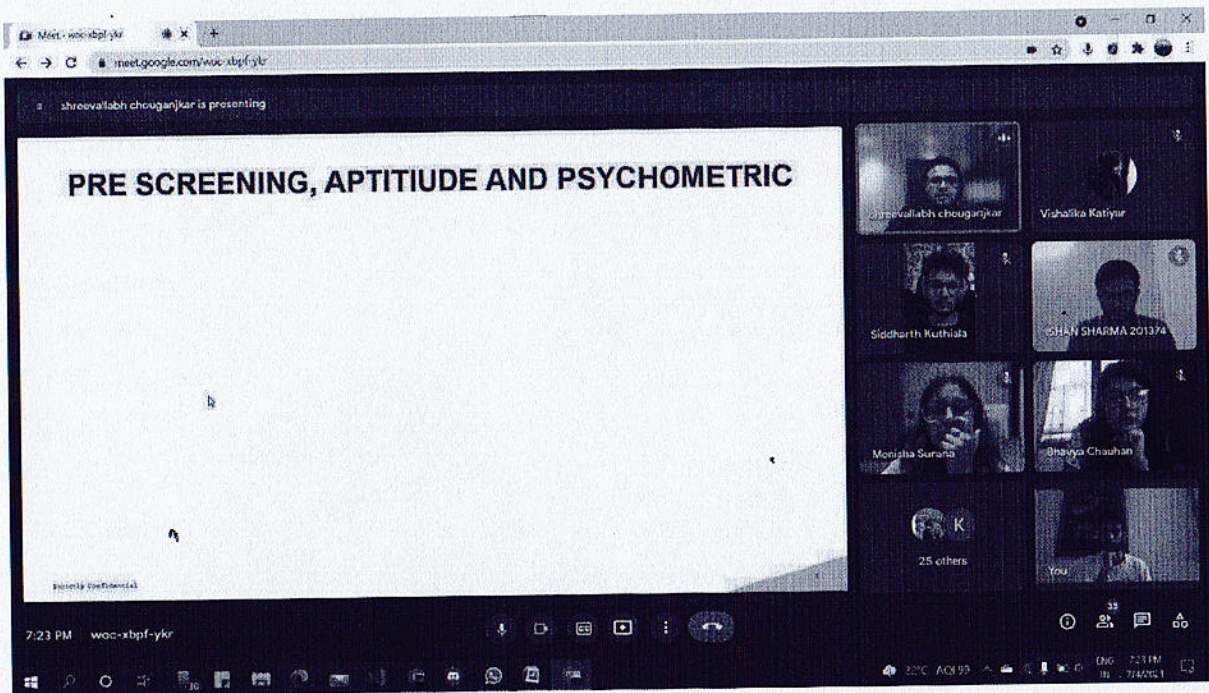

Acing Interviews

Sunday, 4th July 2021  
7pm

**Shreevallabh  
Chouganjkar**  
International Management  
Trainee at METRO Cash & Carry

# Event Captures:

## **Webinar Objective:**

The Guest sought to provide insightful vision into cv/profile building, and Company interviews, with an overall touch of lessons fueled by his own experience in the corporate world.

## **Webinar Details:**

Preparing all 4 years, giving in the best we could, learning and grasping the best we could have, yet these simple 4 words make us think of our whole life: "Tell me about yourself". Regardless of how much vibrant your life has been till the moment that question was asked, combining all that vibrance and presenting it through your words in 5 minutes is undoubtedly a skill that we need to learn, a skill very important for our professional life ahead.

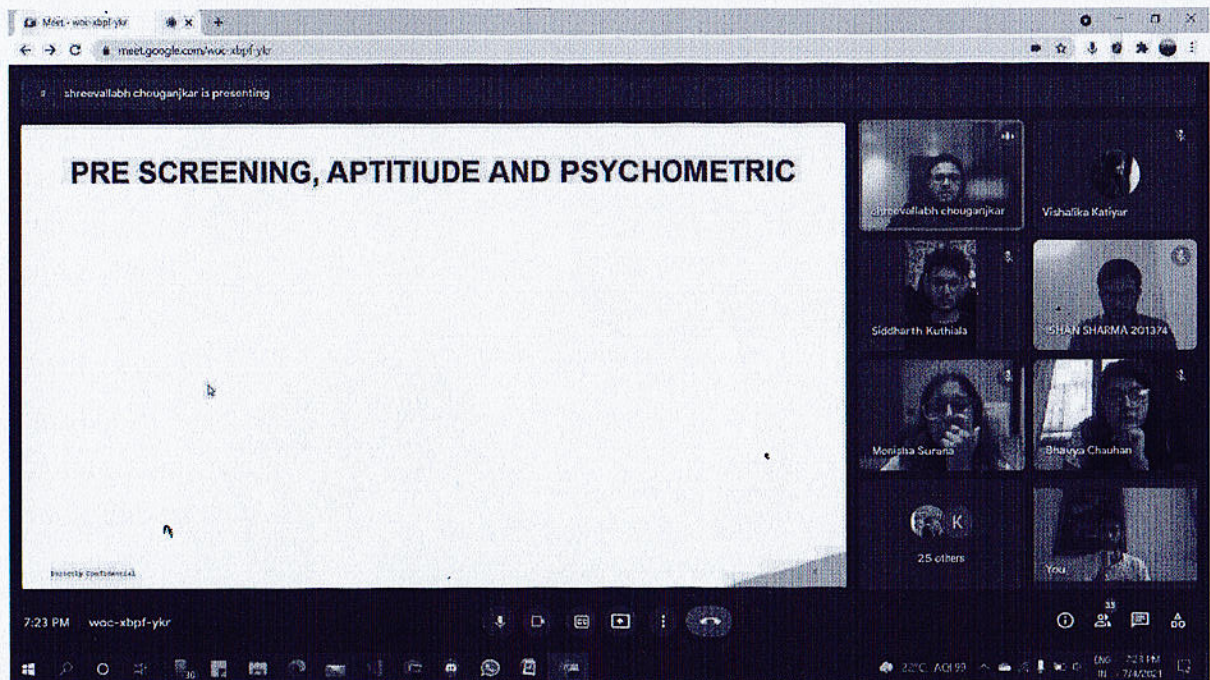

To give us insights into the same, we were joined by a very special guest, Mr. Shreevallabh Chouganjkar, a btech graduate from Visvesvaraya National Institute of Technology, postgraduate in Masters of Business administration from Symbiosis Institute of Business Management, Pune, and a very passionate learner of some very important life skills from the college of life experiences, Currently an International Management Trainee at METRO Cash&Carry.

## **Benefit Obtained:**

The Webinar unfolded very successfully, with the participants getting a lot of eye opening insights into interviews and overall personality building for stepping into the corporate world. In addition to which the guest took an impromptu interview of a participant just to show more clearly how the overall composure of an interview works. The Webinar ended with a highly positive feedback from the guest as well as the participants.
