Regarding Number of Revaluation Applications

JUIT has well defined system of evaluation. Each subject, which a student undertake, has three written examinations namely T1, T2 and T3 with the respective weightage of 15% 25% and 35%. After every examination like T1, T2 or T3, the concerned faculty members evaluate the answer script and thereafter they have to discuss the answers in the class along with the marking scheme.

To make the system more robust, the last date of showing of evaluated answer script to the students are mentioned in the Academic Calendar. Once the student sees their answer script along with the marking scheme, there is no room of doubt in their mind because the same is getting clear right at that time. If any student misses this opportunity even then they can see their answer script by meeting the respective faculty in their office.

Therefore, as such there is NO CASE of Revaluing the Answer Script in JUIT.
