

PLAGIARISM POLICY OF JUIT

INTRODUCTION:

Plagiarism is an academic offense which can ruin academic and research reputation of any academicians or the parent institute. It degrades academic standard and creates a negative impact on the professional front as well. Plagiarism is an act of academic misconduct which can broadly be defined as using another person's words or ideas without giving credit to that person. Use of Internet in day to day lives makes plagiarism issue a very serious and critical one. Plagiarism through ignorance happens sometimes but in a majority of the cases plagiarism happens deliberately, even poor vigilance can also offer a mean to plagiarize. Therefore, the purpose of this policy is to establish and ensure a framework, based on ethical guidelines adopted by other prominent institutions, to deter all forms of plagiarism at JUIT.

ANTI PLAGIARISM SOFTWARE AT JUIT:

The JUIT has purchased an annual license for the plagiarism detection software tool known as Turnitin. Hence, we are herewith proposing an internal mechanism to deter, detect or control plagiarism through the help of Turnitin.

- All manuscripts submitted for possible publication, under the affiliation of JUIT, should be analyzed by plagiarism software tool.
- No report or thesis will be accepted without getting plagiarism checked in the LRC.
- All research students shall provide a declaration of the originality of the work being submitted for evaluation.
- The plagiarism check from the library is essential so that the correct report or thesis is submitted at the time of final submission.
- A copy of the report generated by the plagiarism software should invariably be submitted by the students with the paper/report/thesis to their supervisor or the Research Committee.
- The LRC will issue the certificate of plagiarism check on based on Turnitin Report at the time of final submission. This certificate has to be submitted to the Administration/Examination Branch at the time of submission of the report/thesis.
