In order to promote gender equality, guaranteed by Article 15 of the Indian Constitution, we need to change the mode of interaction at all levels - home, school, and workplace and so on. To increase the outreach for creating an environment that fosters equal treatment, Government of India envisages engagement of **Gender Champions** in all schools and colleges across the country. **Gender Champions can be any student above 16 years of age enrolled in educational institutions.** It is a joint initiative of the Ministry of women and Child Development and Ministry of Human Resource Development.

### Vision

Gender Champions are envisaged as responsible leaders who will facilitate an enabling environment within their schools/colleges/academic institutions where girls are treated with dignity and respect. They will strengthen the potential of these young people to advocate for gender equality and monitor progress towards gender justice.

### Objective

The broad mandate of a Gender Champion is to provide an integrated and interdisciplinary approach to understanding the social and cultural constructions of gender that shape the experiences of women and men in society. The aim is to make the young boys and girls gender sensitive and create positive social norms that value the girls and their rights.
