

7.1.6. Beyond the campus environmental promotion activities

No plastic campaign and house hold survey

21stSept, 2019

Swachhata He Sewa Campaign was launched by the Government of India in 2018, so UBA initiated a campaign of plastic-free village. A team of 30 UBA members visited Dumehar village. Students were divided into 5 groups each consisting of 6 members. Then these 5 groups were scattered and they went to different houses. Firstly the members of each house were greeted properly by every UBA member and then they were briefly explained about the various disadvantages of plastic. We also had banners and posters regarding no use of plastic products and its harmful effects on the environment which helped villagers in better understanding of this campaign. After that each group got survey forms filled by the villagers, various personal details of the respondent were recorded. We also gave them information about the various government schemes and then filled the data regarding how many people were benefitted from these schemes. Then the people were asked about the problems that they were facing and the problems were also noted separately. Their problems were considered and we assured them to provide them with proper solution. The campaign ended up successfully and we hope the problems of the villagers will be solved by the higher authorities.

NO PLASTIC CAMPAIGN

Students of JUIT Under the Guidance of Faculty Coordinator UBA and student Coordinator of UBA recently visited a nearby village Richhana and Dumehar for the "plastic free village" drive under the "SWATCHTA HI SEWA" campaign. Students of JP University told people about the ill effects of plastic, after reaching the villages, these students were divided into 6-6 members. Divided into five groups. The group of students went from door to door in the villages to elaborate about the harm caused by plastic to the villagers, and collected all kinds of possible plastic wastes in order to dispose them safely. Students went to almost every house of that village and collected all kinds of possible plastic wastes in order to dispose them safely. It was also advised to use jute and cloth bags instead of plastic bags to bring goods from the market. Emphasis was placed on the villagers also listened to these things of the students very seriously and decided to reduce the use of plastic. Apart from this, the students also got to know about the daily problems faced by the villagers. Like Waste Management, Traffic Facilitation.

जेपी विवि के छात्रों ने लोगों को बताए प्लास्टिक के दुष्प्रभाव

Swachh Bharat Mission

Date: 3rd April 2022

Place: JUIT Campus to Wagnaghat

Swachh Bharat Abhiyan was launched under the guidance of CTO Dr. Amit Jakhar and Lt. Pragyaa Gupta.

During this, 13 Cadets of the NCC unit involved in the campaign were guided towards the Swachh Bharat Abhiyan and all participated in the cleanliness program by taking the oath of cleanliness.

The cleanliness drive began at 7AM with the energetic group of these young cadets dividing into two parts to clean the maximum possible area and avoid congestion on the roads. The subgroups then took two different routes to Wagnaghat, 3 km from the campus.

Swachh Bharat Mission: Vicinity of JUIT

Date: 14th May 2022

Place: JUIT Campus to Wagnaghat

Cleanliness and Waste Management Awareness Campaign

Unnat Bharat Abhiyan (UBA) JUIT Wanknaghat organized a village survey in Richhana, regarding waste management in households on 17th April 2022. The UBA team started their journey at 10:00 AM after being counseled by our faculty coordinators. The team surveyed seven available houses out of twelve and discussed waste management with the villagers. The survey focused on certain points that as the types of waste available at houses, collections of waste materials, dumping places of waste, availability of cleaners, and distances to travel for dumping waste. The team imparted their knowledge about different kinds of biodegradable and non-biodegradable waste and its segregation before dumping. They found that the villagers had some common problems such as the non-availability of cleaners in the village and the long distances that they had to travel for dumping waste. The villagers usually burnt the waste produced in their household for which the UBA team discussed the alternate ways to tackle that problem. Apart from that the team also discussed the medical facilities and their availability in the village. They found that villagers had to travel to nearby villages for basic medical facilities. After observing and noting down all the problems the survey ended at 12:00 PM. In the end, it was a very successful and memorable event.

Awareness on Water Conservation (Jal Jeewan Mission)

On the occasion of "EarthDay" students of Jaypee University of Information Technology (JUIT) Waknaghat, Solan, organized a visit to a local government school named GSSS, under **Unnat Bharat Abhiyan(UBA)** program. The motive of this visit was to educate children about -"*How to save water & preserve our beautiful earth*". On Saturday 23April, we went to GSSS school & surveyed the school. While surveyed, most of the basic amenities in the school were proper & well maintained. We interacted with children about their knowledge over Environmental concerns & how to preserve our planet. The students were filled with zeal & enthusiasm, they responded wonderfully & gave a few amazing ideas. We explained to the children about rain water harvesting & "Swachh Bharat Mission ". We also counselled students about their future goals & their interests. Children found this session very useful & interesting. We had a very productive conversation with the school principal & teachers, where we discussed the talent within students & basic issues of a small village school. This visit was extremely successful & it will leave a deep impact in the society.

Richanna Visit to interact with villager about water issues

Unnat Bharat Abhiyan (UBA-JUIT) went to Richanna Village for visit. This visit is done under the guidance of faculty coordinators of Dr. Gopal Singh Bisht & Dr. Saurav and active role was played by student coordinator Nishkarsh Sharma along with 3 other volunteer members. The team addressed the issues faced by the local villagers. It was found that right now the main issue for the villages was "Water". Water samples were collected for testing with an aim to provide solutions in the upcoming visit. After interaction with the villages the visit was concluded.

World Environment Day

Cleanliness Drive 2022

Date: June 05, 2022

As a part of World Environment Day celebrations, JUIT organized a joint cleanliness Drive by NCC and UBA (Unnat Bharat Abhiyan) Team on 05/06/2022

Outdoor Activity: Swachta Abhiyaan

Date: 18th September 2022

Place: Maa Tara Devi Temple

Jaypee University organized a Trek and Swachta Abhiyaan with 14 NCC Cadets of 1 HP battalion, Solan. On this occasion, ANO Pragya Gupta and CTO Dr. Amit Jakhar with all NCC cadets started their journey from JAYPEE UNIVERSITY to Taradevi Temple at 7:00 am in the morning. From Mall Road Shimla, and from Jaypee University, it is merely 18 km in distance. On the returning way, all carried garbage bags and cleaned the path. All the unwanted plastic and bottles were picked up and hand over to the right place with awareness among the people.
