## **NSS JUIT Cleaning Drive at the Hilltop**

**Date:** 7th December 2024

**Venue:** Hilltop Near JUIT Campus

### **Introduction**

On 7th December 2024, the National Service Scheme (NSS) unit of JUIT organized a cleaning drive at the hilltop near the campus. This initiative aimed to promote environmental awareness, encourage sustainable practices, and foster a sense of responsibility and teamwork among participating volunteers. The scenic hilltop, often visited by students and nature enthusiasts, had accumulated waste over time and needed a collective effort for restoration.

The event was guided and supported by the NSS faculty coordinators: Dr. Nishant Jain, Dr. Pradeep Garg, and Dr. Ashok Kumar Nadda. Their presence and active involvement underscored the institution's commitment to nurturing socially responsible citizens capable of making a positive environmental impact.

### **Event Overview**

The drive commenced at 2:00 PM, with enthusiastic NSS volunteers assembling at the base of the hilltop. Before setting off, the faculty coordinators addressed the gathering, emphasizing the importance of environmental conservation and the power of collaborative action. They reinforced the idea that simple steps—like picking up litter—can have a lasting effect on the community's collective well-being and the

ecosystem's health.

Armed with gloves, garbage bags, and a shared sense of purpose, the volunteers made their way up the hillside, collecting discarded wrappers, plastic bottles, and other non-biodegradable materials. Throughout the activity, the students demonstrated excellent coordination and teamwork, ensuring that waste was collected responsibly and disposed of properly at designated points.

### **Key Highlights:**

#### **Some of the noteworthy crafts created during the event include:**

**Environmental Learning:** The event served as a hands-on lesson in environmental stewardship. Volunteers witnessed firsthand the type and volume of waste that can accumulate in outdoor spaces due to human neglect.

**Teamwork and Leadership Development:** The cleaning drive brought together students from various academic backgrounds. Working side-by-side helped foster camaraderie, encouraging them to share ideas and demonstrate leadership skills as they organized tasks and supported one another.

**Visible Impact:** By the end of the drive, the area looked noticeably cleaner. The immediate and tangible results provided a sense of accomplishment for all involved and reinforced the belief that simple, collective actions can lead to meaningful improvements.

### **Conclusion:**

The NSS JUIT cleaning drive at the hilltop successfully combined environmental stewardship, educational enrichment, and community engagement. Under the guidance of Dr. Nishant Jain, Dr. Pradeep Garg, and Dr. Ashok Kumar Nadda, the volunteers not only transformed the physical landscape but also grew as socially responsible individuals. Moving forward, NSS JUIT plans to organize similar drives and workshops, ensuring that environmental responsibility remains central to the student experience. Such efforts affirm the institution's belief that informed, active participation can shape a cleaner, greener, and more sustainable future for everyone.
