The objective of this session was to inspire and motivate students to explore the field of entrepreneurship and leverage the potential of Artificial Intelligence (AI) in building innovative solutions. Led by **Mr. Rajan Vaish**, a successful entrepreneur and start-up founder, the event aimed to provide valuable insights from his journey, spark creativity, encourage innovative thinking, and offer a deeper understanding of how entrepreneurial skills can drive meaningful impact in the real world.

#### **Event Overview:**

The motivational session, titled "**From Idea to Impact - Motivational Session by Successful Entrepreneur/Start-up Founder**," was conducted on **28th November 2024** via **Google Meet**. The session featured **Mr. Rajan Vaish**, a renowned entrepreneur and start-up founder, who shared his experiences and insights with over 50 participants, including students and faculty members.

The event was coordinated under the guidance of Prof. Ashish Kumar and Prof. Dr. Shruti Jain, who played a crucial role in organizing and facilitating the session. The session aimed to inspire participants to embrace entrepreneurship and explore the transformative potential of Artificial Intelligence (AI).

Mr. Vaish shared key strategies for turning innovative ideas into impactful ventures, lessons learned from his entrepreneurial journey, and ways to approach challenges creatively and ambitiously. The session concluded with an engaging Q&A segment, where participants received valuable advice on entrepreneurship and AI applications, making the event highly interactive and informative.

#### **Event Benefits:**

- **Enhanced Understanding of Entrepreneurship:** Participants gained valuable insights into the entrepreneurial journey, including challenges, strategies, and critical success factors, shared by Mr. Rajan Vaish, a seasoned entrepreneur.
- **Inspiration to Innovate:** The session motivated students to think creatively, explore new ideas, and consider entrepreneurship as a viable career path.

 (Established by H.P. State Legislature vide Act No. 14 of 2002)

- **Awareness of AI Applications:** The talk highlighted the potential of Artificial Intelligence (AI) in creating innovative solutions, encouraging students to integrate AI into their problem-solving approaches.
- **Practical Insights and Real-World Learning:** By learning from real-world experiences and examples shared by the speaker, participants were equipped with practical knowledge and actionable strategies.
- **Interactive Learning Experience:** The Q&A session allowed students to engage directly with the speaker, clarify doubts, and seek personalized advice on entrepreneurship and AI.
- **Skill Development:** The event promoted critical thinking, creativity, and an entrepreneurial mindset, which are essential skills for academic and professional growth.

### Stanford to Snap

Based in LA, and moved down south from the Bay Area to join Snap's Human-Computer Interaction (HCI) research group as a founding member.

Snap's co-founder and CTO, Bobby Murphy, created this group to *incubate and explore novel social products and the future of Snapchat* on the phone and smart glasses.

*"The two hardest problems in computer science are: (i) people, (ii), convincing computer scientists that the hardest problem in computer science is people" - Prof. Jeff Bigham, Carnegie Mellon University*

As an HCI researcher and a product builder, I have spent about 15 years understanding people and lived and breathed social for the past 7 years.

Led several consumer projects from 0 to 1 and helped ship Snapchat AR lenses that have led to the engagement of *millions of users* worldwide
