

YEARLY STATUS REPORT - 2022-2023

Part A

Data of the Institution

1.Name of the Institution		Jaypee University of Information Technology
• Name of the Head of the institution		Professor Rajinder Kumar Sharma
• Designation		Vice Chancellor
• Does the institution function from its own campus?		Yes
• Phone no./Alternate phone no.		01792224201
• Mobile no		9872202705
• Registered e-mail		rk.sharma@juitsolan.in
• Alternate e-mail address		rk.sharma@juit.ac.in
• City/Town		Solan
• State/UT		Himachal Pradesh
• Pin Code		173234
2.Institutional status		
• University		Private
• Type of Institution		Co-education
• Location		Rural

• Name of the IQAC Co-ordinator/Director	Prof Sunil Kumar Khah				
• Phone no./Alternate phone no	01792239221				
• Mobile	9816975754				
• IQAC e-mail address	juitiqac@mail.juit.ac.in				
• Alternate Email address	sunil.khah@juitsolan.in				
3.Website address (Web link of the AQAR (Previous Academic Year))	https://www.juit.ac.in/AQARIOAC				
4.Whether Academic Calendar prepared during the year?	Yes				
• if yes, whether it is uploaded in the Institutional website Web link:	https://www.juit.ac.in/academic-calendar				
5.Accreditation Details					
Cycle	Grade	CGPA	Year of Accreditation	Validity from	Validity to
Cycle 1	B	2.63	2011	16/09/2011	15/09/2016
Cycle 2	B+	2.66	2017	30/10/2017	29/10/2022
6.Date of Establishment of IQAC	05/09/2016				
7.Provide the list of Special Status conferred by Central/ State Government- UGC/CSIR/DST/DBT/ICMR/TEQIP/World Bank/CPE of UGC etc.					
Institution/ Department/Faculty	Scheme	Funding agency	Year of award with duration	Amount	
Nil	Nil	Nil	Nil	Nil	
8.Whether composition of IQAC as per latest NAAC guidelines	Yes				
• Upload latest notification of formation of IQAC	View File				
9.No. of IQAC meetings held during the year	2				
• The minutes of IQAC meeting and compliance to the decisions have been uploaded on the institutional website.	Yes				

(Please upload, minutes of meetings and action taken report)	
<ul style="list-style-type: none"> (Please upload, minutes of meetings and action taken report) 	View File
10. Whether IQAC received funding from any of the funding agency to support its activities during the year?	No
<ul style="list-style-type: none"> If yes, mention the amount 	
11. Significant contributions made by IQAC during the current year (maximum five bullets)	
MOOCs courses to be included in fifth semester onwards	
interdisciplinary research enhancement by introducing joint supervision .	
12. Plan of action chalked out by the IQAC in the beginning of the Academic year towards Quality Enhancement and the outcome achieved by the end of the Academic year	
Plan of Action	Achievements/Outcomes
1. Introduction of MOOC Courses in fifth semester	achieved
2. interdisciplinary research enhancement	achieved
13. Whether the AQAR was placed before statutory body?	No
<ul style="list-style-type: none"> Name of the statutory body 	
Name	Date of meeting(s)
Nil	Nil
14. Whether NAAC/or any other accredited body(s) visited IQAC or interacted with it to Assess the functioning?	No
15. Whether institutional data submitted to AISHE	

Year	Date of Submission
2021-22	15/02/2023

16. Multidisciplinary / interdisciplinary

The Management of the University has accorded approval for implementation of NEP-2020 at the University. Considering the provisions given in the NEP-2020, various Task Forces have been formed and assigned with the task of outlining the strategy of implementation of NEP-2020. The NEP Task Force - 2 has been assigned the task of identifying strategy plans for "University - Holistic Multi-disciplinary Institution of Higher Learning" and "Integrated Education System". In order to develop the all-round capacities of the students, Intellectual, Aesthetic, Social, Physical, Emotional and Moral in an integrated manner, Task Force - 2 has identified following aspects for implementation in a phased manner.

Introduction of online Certificate Courses. Introduction of Vocational Courses in consultation with ITIs and Polytechnics as per the need of the industry. Introduction of BBA program. Programs on Yoga, Wellness and Naturopathy, EQ and Art of Living. Introduction of online Certificate and Diploma programs on soft skills and Language Proficiencies. Introduction of Interdisciplinary PG+ PhD Programs. Establishment of School / Department of Liberal Arts. Although as per existing curriculum and academic regulations, students are having sufficient opportunities for selection of multiinterdisciplinary elective courses offered by various departments. Along with the provisions of choosing departmental electives, students are having full freedom to choose courses out of the Open Elective Courses offered by varied departments. The existing system permits students flexibility of choice-based credit system from multiinterdisciplinary elective courses. The concept of Major and interdisciplinary minor specialization is already in place as per existing academic ordinances. Students desirous of opting interdisciplinary minor specialization have the liberty to choose their minor specialization by earning 20 additional credits. The measures to decide proficiency of their chosen field is also available for the students. Students have to identify their proficiency area and can opt of the desired proficiency. In order to implement the principle of STEM (Science, Technology, Engineering and Mathematics) integration of Humanities and Social Sciences have been worked out and Department of Humanities and Social Science is floating Proficiency Courses from the department for BTech students. Implementation of Integrated Education System is not possible without implementation of Academic Bank of Credits (ABC). In order to provide seamless facilities of multiple entry and multiple

exit and collaboration of Universities for switching from one program to other on the conclusion of 1st , 2nd , 3rd & 4th Year, University has already registered on ABC Portal and students admitted during the academic session 2021 and 2022 have been asked to register on ABC portal and get their ABC ID to facilitate accumulation/redeeming/transfer of credits as per their choice of program / specialization and Academic Institutions. The provisions of opting for online courses offered under the Ministry of Human Resource Development (MHRD) like SWAYAM, NPTEL, etc. for added credits are also available for students to choose courses as per their area of interest In addition to above, University is heading towards implementation of Curriculum and Credit Framework for Undergraduate Programmes prepared by Expert Committee and suggested by University Grants Commission (UGC) vide Public Notice No. F.No.1-1/2021(QIP)(CBCS) dated 12 December 2022.

17.Academic bank of credits (ABC):

As per National Education Policy 2020, Jaypee University of information Technology, Waknaghat has registered with the MHRD for Academic Bank of Credit and has started its preparation to establish the virtual mechanism termed as "Academic Bank of Credits (ABC)" to deal with the credits earned by the students of higher education. The primary role of our university would to facilitate the academic mobility of students with appropriate freedom to study across the higher education institutions in the country by the inherit mechanism of "credit transfer".The university will shortly apply for its registration with its modality on Academic Bank of Credits for depositing the earned credits in an authorized way into the student's accounts. The university is already following the SWAYAM, NPTEL, V-Lab etc. which are eligible to avail the facilities provided by Academic Bank of Credit. The model would certainly be in line with the guidelines recognized by the University Grants Commission (UGC). The credits earned by the students will carry a validity of 7 years unless otherwise specified for that particular course; and upon the end of the validity period these credits will expire. The scheme will include all kinds of courses offered by the university which are recognised by the University Grants Commission (UGC), be it a graduation course, postgraduate course, PhD courses, certificate courses, etc. This will be in accordance with the concept of multiple entry and multiple exits. The university would ensure to lodge and maintain the integrity of the credits by maintaining the authenticity and confidentiality of student credits. The university would also take care of transparency to build a more flexible curriculum design and development.

18.Skill development:

The implementation of NEP-2020 has marked a revolutionary shift by emphasizing on skill based education. In order to develop the skills of the students and to enhance the employability, various departmental and open elective/proficiency are being run in the undergraduate programme. A action plan of NEP is to be implemented in JUIT, it is proposed to start a certificate course (Industry Professionals) and proficiency in Tunnel Engineering this year. Various new open are planned to be offered this year. A proposal will be drafted and collaboration opportunities will be explored to establish the laboratories for 3D machining and printing in coming years. A Centre of excellence in robotics and 3D machines will be developed in the future. MOOC NPTEL courses have been offered to students and this practice will be continued in the future. Google meet has been well in practice since the mandatory online classes were run at Covid-19 time in 2020. The Moodle platform has also started in 2022 in parallel to manage course content, important announcements, conducting quizzes etc. MoU with Coursera / LinkedIn is to be planned by the end of this year. The future plans include:

- To work on framing the policy related to new courses.
- To start working on the development of hybrid course curriculum with industry partner
- Start online education program
- Developing own online teaching platform

Digital contents will be created for different courses by the end of year 2023. In coming years, faculty members will be nominated for developing their web pages and creating the digital content of the courses. Departmental digital repositories for various courses and page 12 / 126 research will also be developed in the future. Presently, the students are made to perform virtual labs pertaining to various lab courses and this practice will be continued in coming years as well. Virtual lab workshops and training will be organized for both faculty and lab staff at least once in a year. Faculty members will also be engaged in developing digital infrastructure for knowledge sharing. Blended learning is a multidimensional approach to teaching-learning and the term is given to the educational practice of combining digital learning tools with more traditional classroom face to face teaching. JUIT has all the required IT literacy, Internet and ICT infrastructure for implementing blended learning. Some of the activities are planned in the coming years. In the coming years Project based learning will be implemented. Minor projects in each laboratory subject have been implemented from odd semester 2022. It is also proposed to give training to faculty members regarding teaching techniques once in a year and industrial visit of students once in a year, to conduct two webinar session every semester for any elective subject with selected advanced topics from expert from academia/Industry, to conduct training session/workshops one each semester on

advance topic of research and to work on developing open distance learning (ODL) Master degree programme in each department in blended mode.

19.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

The vision of JUIT is - "To become a Centre of Excellence in the field of IT and related emerging areas in education, training and research comparable to the best in the world for producing professionals who shall be leaders in innovation, entrepreneurship, creativity and management". Thus, JUIT strongly endeavours to create responsible and value laden professional citizens. Several creditbased courses such as - Life Skills, Interpersonal Dynamics Value and Ethics, Understanding India through Literary Reflections help inculcate values and principles related to - gender equity, tolerance, cultural respect, professional ethics etc. The pedagogy adopted also helps strengthen the same. Class discussions, case studies and peer-based evaluation and exercise also help build a sense of responsibility. Other subjects particularly offered by Department of Humanities and social sciences such as strategic management, human resource management and entrepreneurship also touch several issues of similar nature. Work pace etiquette, gender sensitization, woman leaders, managers and entrepreneurs, work life balance are integral concepts to such courses. Several contemporary issues and events that through light on such issues are a part of class discussion which helps build a value orientation amongst students. Additionally, several committees are in place such as Gender Champion Club, Caste Based Discrimination Committee, Internal complaint committee which undertake several workshops, seminars and webinars etc on a continuous basis to address and inculcate valuebased education and professional ethics. The induction program for the incoming batch also invites speakers and includes activities that help bring attention to human value. Several academic projects are undertaken which mean to address community concern and offer solutions by use of modern-day technology that improves the quality of life.

20.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):

The evaluation system at JUIT is structured and transparent in design. Ordinances, rules and regulation as well as penalties for unfair means are available at university website and can be freely accessed by students. Registrar office help desks, examination cell and faculty members are forthcoming to guide students regarding their progress and any exam related issue. Slow learners are also paid attention too. They can drop some subjects for the semester at

a given point of time to lessen their load and several opportunities are provided such as - semester extension in degree completion, summer semester and pursuing it in the next year as a backlog subject. The provision of makeup exam is also present in each semester and schedule provided in academic calendar. The purpose is to address concerns of students who missed their exam for any medical or any genuine issue. Similarly, supplementary exams are also scheduled to provide students with additional opportunity to clear the course in a proper frame of time itself. The academic calendar provides information on the schedule of examinations. In a semester which spreads across 20 weeks generally several points of evaluation occur such as - Test 1, Test2 and Test 3, Practical exam 1 and Practical exam 2. Besides, the component of Internal assessment for both theory and practical courses includes several evaluated sessions which are undertaken to continuously monitor student performance and provide them opportunities to improve their score and performance. A further step is the newly introduced policy for -One Project (small/large) based evaluation with every lab course, 30%-50% Lab Evaluation through project. Also, an Inhouse Moderation Committee for question papers is in place to foresee the quality of question papers.

21.Distance education/online education:

Introducing the latest technology in an educational institution is important and improves the teaching and learning quality of education. Using the latest technology helps teachers to realize a number of important goals, including better-involving students in an active learning environment. Also, the involvement of the latest technology in the education sector boost the teaching and learning capability and equip the learner and educator with better skill to integrate. In today's digital world, there is an urgent need to learn virtual platforms thoroughly because of the massive use of those platforms in our lives. It also saves our time and as well as money. For the working professional, it is not easy to take leave from the office and hence distance education/online education plays a significant role. To promote the uses of online teaching, JUIT management emphasis on the uses of on-line teaching Platforms and tools like SWAYAM, DIKSHA, etc as much as possible. At present, a number of a platform like Massive open online courses (MOOCs), Swayam etc. are available for online learning and these are free online courses available for students to enroll. Online education affects the way that the learning course of a student is made easier due to familiarity with the online world. Finding and learning from resources that are not available at hand but from computer-generated platforms proves to be quite helpful for a student. Furthermore,

JUIT is planning to develop its own online teaching platform and also trying to develop an active MOU with online course provider like Coursera. The mandate of the university is to create digital Repositories of course content and dissemination of the same, in the same line each department will send a proposal for content creation at MOOCS, NPTEL, etc and all faculties will develop their webpage and create the content of the subject. Similarly, the entire department will develop their own web pages having all the content (departmental digital library & repository for Research and development). University also working on the framing of policy related to new courses and the development of the related online platform. To improve teaching practices JUIT is working on the development of AI based adaptive learning platform and is inclined towards project-based learning. University is very positive to initiate the open distance learning (ODL) Master's degree Programme in each Department in blended mode. At Present, the students are given exposure to online virtual labs platforms available at IIT Delhi and IIT Roorkee and this practice will be continued in the coming years as well.

Extended Profile

4.5 Total expenditure excluding salary during the year (INR in lakhs)	2360.55
Part B	
CURRICULAR ASPECTS	
1.1 - Curriculum Design and Development	
1.1.1 - Curricula developed and implemented have relevance to the local, national, regional and global developmental needs which is reflected in Programme outcomes (POs), Programme Specific Outcomes(PSOs) and Course Outcomes(COs) of the Programmes offered by the University	
<p>JUIT has been developed as a modern world-class campus, with an intellectually vibrant ambiance in a serene and lush green environment. Different departments broadly follow 12 Programme Objectives (POs) adopted from National Board of Accreditation (NBA). Keeping all these POs in consideration, departments define their Programme Specific Objectives (PSOs) which match the specific requirement of the given program. All the subjects which are being offered in the program, across all the semesters, must have its Course Objectives (COs) in such a way that these COs are mapped with the POs and PSOs of the concerned program of the department. While mapping the COs with POs and PSOs there are three levels of mapping ranging from 3 to 1 (3 highest and 1 as lowest). After the examinations, once the result of the given course is compiled, then the level of attainment of COs is calculated as: If more than 80% of</p>	

students secure more than 50% marks in the questions related to that CO, the level of CO attainment for the given question is 3, if more than 70%-80% , the level is 2, If 60%-70% , the level is 1, if less than 60% the level of attainment will be considered 0.

1.3 - Curriculum Enrichment

1.3.1 - Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum

The University has incorporated courses such as Environmental Studies , Interpersonal Dynamics Values and Ethics and Human rights for Technocrats that incorporate aspects Environment and Sustainability; Human values; Ethics; and Psychological perspectives related to emotional intelligence, self and personality. With reference to the Environment and Sustainability, the exposure to the course on Environment facilitates students to understand the terms definitions and scope of the environmental issues at local, regional and global level with emphasis on needs for conservation of energy and environment. The core course entitled Interpersonal Dynamics Values and Ethics, UHV and Human rights for Technocrats are designed to facilitate students in understanding the interplay between, psychological, ethical and economic principles in governing human behavior. The course is designed to help the students to understand the basic principles and acquaint them with the major perspectives in psychology of human mind and behavior and to provide an understanding about the how ethical principles and values serve as a guide to behavior on a personal level and within professions. These courses are taught to the students across all the programmes.

2.2 - Catering to Student Diversity

2.2.1 - The institution assesses the learning levels of the students and organises special Programmes for advanced learners and slow learners

JUIT ensures that students receive academic, emotional, professional and personal support from the time they join the University. The following methods are adopted to make sure that the needs of both slow and advanced learners are fulfilled:

1. The newly admitted students are sensitized to the curriculum offered through Choice Based Credit System & Outcome-Based Education during admission as well as during the induction programme by individual departments and by the office of the Dean of Students.
2. The Student Mentoring Programme: Herein, we assess the learning levels of both the advanced and slow learners. Weak students having CGPA of less than five are identified and segregated department-wise. The concerned department assigns faculty mentors who guide the student regarding clearing their backlog courses and earning remaining credits. The mentoring sessions are regularly conducted and documented during the semester.
3. Remedial classes/Diagnostic test: Basic English course is offered to students who require to be more proficient in

English. Basic Mathematics is offered to the non-mathematics stream students of BTech. in the Biotechnology/Bioinformatics programme.

4. Extra classes and labs:
5. Career & Psychological Counselling:
6. Mock interviews:
7. Extra course credits:
8. Advanced learners are also encouraged to choose student exchange programs/summer programs at National/International Institutions.
9. Expert Lectures by Visiting Fellow/Adjunct Faculty/Student Programs are regularly arranged to motivate both the slow and advanced learners.

1864	102

File Description	Documents
Upload relevant supporting document	View File

2.3 - Teaching- Learning Process

2.3.1 - Student centric methods, such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experiences

JUIT adheres to the principle that student-centred approaches should be followed wherever possible. Even the course outlines specify the expected outcome of the course and the levels of attainment like familiarity, assessment and usage. Activities such as Role Plays, Group Projects, Debates, Seminars, Quizzes, and Case Studies are used for teaching various concepts. Similarly, Project work, Field Visits, Industrial Tours, and Guest Lectures are all examples of teaching strategies that are followed to put the focus on the students. Students are given smaller projects to work on as part of their curriculum, which provides them with a broader perspective on

the subject and encourages participative learning practices among them. Learning through Projects in workshop mode by DIY (Do It Yourself) has been an essential component of the educational program. The following practices are primarily used as a part of the Student-Centric approach:

Experiential Learning;Engagement in Project Works, Industrial Visits and participation in various activities are some core examples of experiential learning that are being followed in JUIT.

Participative Learning:Group Discussion, Team Work, Role Play, and Case Studies are examples of this teaching method that are actively followed by the faculty members.

Problem Solving:It primarily includes Research-Based Projects, Case Studies and Joint Projects. The students in JUIT are encouraged to take these activities.

File Description	Documents
Upload relevant supporting document	View File

2.3.2 - Teachers use ICT enabled tools including online resources for effective teaching and learning processes during the year

JUIT uses online resources and ICT-enabled tools like Board & Duster to improve teaching and learning. ICT-enabled classrooms with LCD projectors, Wi-Fi, software, and teacher-created PowerPoint presentations give pupils cutting-edge information and practical learning.The labs have MS Office, Matlab, Python, Xilinx, Window 7 Professional & Window 11 Professional, Geo 5, NI Lab View Academic Site, SPSS, Clarity Digital Multimedia, Sophos Antivirus, and Auto CAD.

Wi-Fi campus access lets students complete research and project work from home. Every classroom has a projector for new pedagogies. Faculty and students utilise Webkiosk and Google suit for online learning and group email for efficient communication and information distribution.

JUIT's learning management is also available on Moodle to promote ICT in teaching and learning. At this site, faculty coordinators tag all students registered in the current semester's courses and update lecture notes, video links, and other study resources. Accessing study resources is easy since students can log in anywhere.

The faculty uses different methods depending on the subject and student needs. They use teacher-centered lectures and interactive, team-based, ICT-enabled methods like Microsoft Teams and Google Classroom.

Apart from teaching-learning, JUIT's LRC (Learning Resource Centre) has enough e-resources such e-books, e-journals, databases, e-magazines, and more to meet students' needs.

The "Online Education Cell" also managed ongoing online activities and planned for the future.

2.5.3 - IT integration and reforms in the examination procedures and processes (continuous internal assessment and end-semester assessment) have brought in considerable improvement in examination management system of the institution

The three-tiered examination system and continuous evaluation system at JUIT are well-established, systematic, and very effective, with multiple assessments opportunities given throughout each semester. The "Campus Lynx" IRP system (popularly called as "Webkiosk") is very modular and expandable. The technical innovations that JUIT has implemented in its examination system are supported by this platform. Camus Lynx (Webkiosk) provides expert management for the entire procedure, from accepting applications to tracking students' progress and graduation. The University Examination Cell is using IRP to preserve transparency, correctness, and mass data management in the standardised automated process relating to the administration of examinations, the declaration of results, and awarding of degrees.

With the help of IRP and other forms of IT integration, the entire examination procedure has been brought up to date and sped up. Students, parents, teachers, and administrators can all benefit from using the IRP system. The following examination-related tasks are administered via the IRP system:

- A thorough academic calendar that includes crucial dates for the execution of University examinations is produced and displayed well before the commencement of academic year.
- Both parents and students are given a unique login ID. Through the university site, parents may keep an eye on their child's participation and progress.
- The examination schedule is created on Webkiosk and made available to each student in accordance with the registered courses.
- All Examination Activities till results are on webkiosk.

2.6 - Student Performance and Learning Outcomes	
2.6.1 - The institution has stated learning outcomes (generic and programme specific)/graduate attributes which are integrated into the assessment process and widely publicized through the website and other documents	
<p>The Jaypee University of Information Technology Waknaghat has adopted Outcome-Based Education (OBE) framework as prescribed by NBA for graduate programmes with an enhanced focus on higher-order learning and professional skills. The Graduate Attributes (GAs) defined by NBA and the programme-specific outcomes (PSOs) have already been integrated into the academic curriculum and also in the assessment process in all the programmes. GAs and PSAs are well disseminated among the stakeholder through displaying the same at prominent places of the department such as at department notice boards, It is also displayed on the homepage of the respective department on the university website.</p> <p>Based on expected learning outcomes of a particular course and taking Feedbacks from Students, Alumni and Industry (Employers) to assess the attainments of learning outcomes the course content is designed along with its assessment criteria. Along with the GAs and PSOs, the course outcomes (COs) of each course are well-defined. The course outcomes along with the complete course description are drafted by the department which is presented for discussion and recommendations to the Board of Studies and finally the Academic Council for the approval. The course outcomes of each course have always been displayed and informed to the students at the start of semester. The attainment of GAs and PSOs through COs are assessed on regular basis at the end of semester taking into account the performance of each student in all components of assessment such as internal assignments, T1, T2 and T3 exams.</p>

2.6.2 - Attainment of Programme outcomes, Programme specific outcomes and course outcomes are evaluated by the institution during the year

POs and PSOs Attainment:

The attainment level of POs and PSOs are calculated based on COs attainment level - if the COs attainment level is greater than and equal to 1 then the attainment level of POs and PSOs will be considered as if they are attained. However, if level of attainment of COs is less than 1, POs and PSOs are considered to be Not Attained. Thereafter, the average attainment level of POs and PSOs of the subject of a given semester, for a given programme, is calculated which are finally reported as Final Attainment level for that subject. In the same way, the final attainment level of all the subjects in each semester, for a given programme, are calculated and compiled.

Thereafter the average attainment level of all semesters are calculated which will reflect the overall score of attainment of the respective academic year. Based on the final score, we come to conclude that whether the POs and PSOs of a department, for a given year and for a given programme, have been attained or not.

In addition to methods discussed above, University stakeholders' input measures programming outcomes. The online/offline written student feedback system gives information on course relevancy, availability, teaching style, and employability. The University adjusts learning results with their honest comments. The University uses student satisfaction surveys to monitor course and programme outcomes by department.

2.7 - Student Satisfaction Survey

2.7.1 - Student Satisfaction Survey (SSS) on overall institutional performance (Institution may design its own questionnaire) (results and details need to be provided as a web link)

<https://www.juit.ac.in/juit-igac>

RESEARCH, INNOVATIONS AND EXTENSION

3.1 - Promotion of Research and Facilities

3.1.1 - The institution Research facilities are frequently updated and there is well defined policy for promotion of research which is uploaded on the institutional website and implemented

The lab facilities for research including infrastructure are regularly improved by the University. The departmental faculty evaluates present and potential needs for improving and generating research facilities in merging research areas every year through departmental faculty meetings and forward to the higher authorities for necessary action. The recommendations given by the departments are discussed and needful is done in the budget accordingly. The University provides round the clock UPS and generator back up and provides internet facility, subscription to print and online research journals, travel grants to attend conferences, high end instrumentation facility. The faculty has completed many national agencies funded research projects. The faculty has been granted many patents both nationally and internationally. The IPR cell grants administrative and financial support to file patents. There are many research collaborations nationally and internationally. The departments organize national and international conferences, workshops, symposia, and FDPs for the research and academic development of faculty. The university provides duty leave and sabbatical leave to faculty for research work. The University has setup COE in various fields of importance. The Directorate of Innovation, Research and Development has been established by the Jaypee Education System to identify, encourage and improve research and fund novel projects\COE.

3.3 - Innovation Ecosystem

3.3.1 - Institution has created an eco-system for innovations including Incubation centre and other initiatives for creation and transfer of knowledge

The University has a Technology Incubation and Entrepreneurship

Development Cell (TIEDC). It is aimed on exploring the innovations and research strengths available in different engineering disciplines which are able to eventually deliver these as socially relevant projects as startup ventures.

The aims of incubation centre are to help potential entrepreneurs acquire the essential managerial skills to run their business ventures through mentoring support and to carry out Entrepreneurship programmes and workshops to build up entrepreneurial and innovation skills.

TIEDC has been carrying out its function as Incubator since January 2017. TIEDC signed MoU with the Department of Industries on 08/05/2017 under the Chief Minister's Startup/ Innovation Projects/ New Industries Scheme, Himachal Pradesh.

TIEDC has dedicated space for Ideation, Network Meetings, Video Conferencing, conducting small Boot camps and office work. TIEDC also assists hands-on experiences for innovators to develop prototypes/ products. TIEDC is equipped with the latest computers, Wi-fi, projection, live video chat and printing facilities.

TIEDC has successfully organized about 30 Workshops/ hackathons/ Ideathons/Seminars/Boot-camps/Webinars (startup related).

So far, in the academic session 2022-23 TIEDC has evaluated 13 applications and successfully incubated 03 startups and at present, 05 startups are in incubation. More information about the TIEDC is available at <http://www.juit.ac.in/tiedc-cell>.

3.5 - Consultancy

3.5.1 - Institution has a policy on consultancy including revenue sharing between the institution and the individual and encourages its faculty to undertake consultancy

The university encourages its academic staff to engage in consultancy projects to spread the benefits of their research to different sectors of business and government. Consultancy projects enhance the professional experience and expertise of faculty, making them better teachers and researchers. The university has laid down a policy for academic staff engaged in consultancy projects, with a well-formed distribution of consultancy funds between the institute, faculty and staff. The policy covers the major expenses of consultancy work, including procurement of apparatus, travel expenses, and manpower payments. The university overhead is used to upgrade both the university and the department. This includes material and equipment procurement, laboratory development, and funding for workshops, conferences, and FDPs. This creates a better teaching and research environment for both the academic staff and students. Consultancy assignments provide first-hand knowledge of the issues facing business, which is beneficial in adapting the curriculum to meet the demands of time. Although University welcomes faculty members to engage on consultancy projects, it is expected that they will not invest more than one day of their working week in the activity. Academic members are expected to preserve institution's reputation and prestige at all times while working on these initiatives.

3.6 - Extension Activities

3.6.1 - Extension activities in the neighbourhood community in terms of impact and sensitising

students to social issues and holistic development during the year

The ethos of education at JUIT transcends traditional boundaries, aiming to instill a profound understanding of societal nuances and the imperative of social responsibility through UBA, Gender Champion Club, NCC, and NSS. JUIT has adopted five villages - Chausa, Wakna, Domehar, Richhana, and Bisa . under UBA. This fosters sustainable solutions for accelerated growth in hilly terrains. There is involvement of students and teachers in Gram Sabha, enlightening villagers about Biogas, a Computer Literacy Program, and a compelling Drug Abuse Rally at Chausa village. Moreover, UBA team conducts physio-chemical analysis of drinking water and actively advocates for a 'No Plastic' campaign. The Gender Champion Club, with its integrated and interdisciplinary approach, contributes to the cultural construction of gender. It orchestrates events like International Women's Day Celebrations, Slogan Writing Competitions, Nukkad Natak, and Gender Sensitisation Workshops. Adding a dynamic layer to this social canvas is NSS, where students actively participate in community service. This scheme extends the university's outreach, channeling the energy and enthusiasm of students into activities that benefit society at large. Be it organizing Blood Donation Camps, Tree Plantation Drives, or actively participating in Swachh Bharat Campaigns, NSS e serves fosters a sense of social responsibility among the students.

INFRASTRUCTURE AND LEARNING RESOURCES

4.1 - Physical Facilities

4.1.1 - The institution has adequate facilities for teaching - learning, viz., classrooms, laboratories, computing equipment, etc.

The University campus is spread over 25 acres of lush green picturesque slopes of HP. The classrooms and laboratories have the requisite online and offline learning facilities. All the classrooms and laboratories are equipped with large dimension whiteboards with an additional screen and projector system facility. Additionally, All the classrooms and laboratories are furnished with computer systems and internet facilities with access to intranet .The working and teaching spaces in the laboratories have distinct orientations for the parallel ongoing experimental and projection work whenever required. The equipment conditions and requirements are continuously monitored by the laboratory in-charges and the departmental lab coordinators for continuous updation, repair and calibration jobs. The library and laboratories are designed with safety features to create an excellent ambience and atmosphere for reading, learning and work. Internet facility is available with LAN connections and Wi-Fi connectivity throughout the campus. The students can access the internet in the academic block and the other parts of the campus.

The University has fourteen hostels to accommodate 1688 students, 87 residences, 5 gyms for students, 6 TV lounges, 32 classrooms (inclusive of lecture theatres and tutorial rooms), 61 laboratories, one board room, and one auditorium with approximately 1200 seating capacity.

File Description	Documents
Upload relevant supporting document	View File

4.1.2 - The institution has adequate facilities for cultural activities, yoga, games (indoor, outdoor) and sports. (gymnasium, yoga centre, auditorium, etc.)

In addition to academics, the university emphasizes on the good health of students, faculty and staff.The university through Sports club encourages students to take part in different games such as

Badminton, Cricket, Football, Basketball, Volleyball and Table Tennis etc. The university has five well equipped fitness centers (Gyms), 02 Open Badminton courts, 01 Football ground, 06 Table Tennis Tables and 01 Indoor Badminton court. The university also has qualified coaches to train the students in sports like badminton, volleyball, table tennis, yoga and in gym.

The university also has sufficient numbers of lecture theaters, conference halls, and auditorium to organize various types of cultural and literary events. It has an auditorium of nearly 1200 seating capacity and 03 lecture theaters for organizing various extra and co-curricular activities. The public celebrations like Independence Day, Republic Day, Women's Day, Children's Day, and International Yoga Day etc. are also celebrated here.

JUIT Youth Club (JYC) organizes sports and cultural activities through different clubs and committees like environment, art, movie, sports etc. on a regular basis which encourages students to engage in the extracurricular activities and organize the Annual events such as Le-Fiestus, Murious, Diksha, Goonj, Dhun, Parakaram etc.

4.1.3 - Availability of general campus facilities and overall ambience

Student and employee welfare is an essential facet of JUIT culture, reflected through various facilities in all academic and administrative domains. Some of these facilities are highlighted at <https://www.juit.ac.in/student-welfare>.

The other facilities are:

- Mess and canteen facilities.
- Cafeteria, tuck shop and convenience shop for daily needs, refreshments, and snacks are available on campus.
- A stationary shop is available inside the campus.
- A dispensary with medical and ambulance facilities.
- The entire campus is cleaned daily
- The campus is fully enabled with Internet and Wi-Fi connectivity.
- Punjab National Bank's branch with ATM facility.
- The University has a laundry facility and Laundry charges are included in hostel charges.
- BSNL exchange on the campus: EPBX exchange with various lines

capable of supporting 400 connections. All officers, faculty members and other essential facilities are connected with this exchange.

- An Open Book Bank facility has been set up in the Dhyan Kaksh where books donated by current/pass out students have been kept. Student can pick up a book of his/her interest, without any charges.
- Outdoor floodlit grounds are available for Basketball, Volleyball and Badminton. An indoor facility for Table tennis, carom and Chess is also provided. The University has five fully equipped gyms.

4.2 - Library as a Learning Resource

4.2.1 - Library is automated using Integrated Library Management System (ILMS) and has digitisation facility

The Learning Resource Centre (LRC) has always been a fully automated facility. Recently, the library has switched over to universal and user-friendly open management software KOHA. Information about the software 'KOHA' is given in the following Table.

Name of the ILMS

Koha

Nature of Automation

Fully Automated

Version

20.11.09.000

Year of Automation

2023 (migration completed)

URL

<http://14.139.240.62:8080/cgi-bin/koha/catalogue/search.pl>

OPAC

<http://14.139.240.62/>

Earlier, for library automation, an integrated library management system, namely, 'Alice for Window' was used, which was upgraded with 'Liberty' software in 2010. Dedicated terminals with OPAC facility are available on each floor of the library.

A 3M security system was installed in 2006 to check library materials' movements. It has an institutional repository built on D-Space open source software accessible from <http://www.ir.juit.ac.in:8080/jspui/>. It also focuses on subscribing to e-resources negotiated by the e-Shodh Sindhu (ESS) consortium. The library has adequate terminals to facilitate searching/accessing e-resources, and other academic/research works. It has scanning and reprographic facilities for the users as well. The library is an active member of DELNET and NDLI. In-house access to the learning contents of NPTEL is provided through <http://172.16.73.132/>.

The library has a dynamic website, which can be accessed at: <https://www.juit.ac.in/lrc/home.php>

4.3.2 - Institution has an IT policy, makes appropriate budgetary provision and updates its IT facilities including Wi-Fi facility

The University has a robust IT system that caters to the needs of students, faculty and staff with over a thousand terminals. All the records related to IT services are maintained in the Server Room of the University. All maintenance, updates and new procurement-related events take place with the advice and recommendations of all HODs.

The campus has 1 Gbps dedicated leased line Internet connectivity from BSNL and 500 Mbps from Railtel. The server room provides email services to teaching and non-teaching staff of the University through IBM Lotus and to all the registered PhD students through the domain name 'MAIL.JUIT.AC.IN'. Simultaneously, email service over

the domain name 'JUIT SOLAN.IN' is provided to all teaching and non-teaching staff and registered students of the University.

The University promotes Green computing by adapting the best practices using energy-efficient CPUs, peripherals, projectors, UPS and Servers, ensuring less power consumption. The University shows its environmental responsibility by reducing resource consumption when not required. The University ensures an ethical use of information technology and its tools to carry its all activities..

The IT policy of the University is in place and announced on the Website. University allocates a reasonable budget for updating its IT infrastructure.

4.4.2 - There are established systems and procedures for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc.

The University has a designated officer and staff to oversee infrastructure maintenance like buildings, classrooms, laboratories, hostels and faculty residences. Numerous initiatives ensure a continuous improvement in the physical ambience of the University. A well-maintained plant nursery and regular tree plantation initiatives help enhance University's green cover. The University has well-maintained lawns and gardens to improve the ambience on the campus. The University has efficient management to dispose of garbage or any food waste. The University has a sewage treatment plant that treats water to be used later for irrigation purposes. In addition, the University also has treatment plants for freshwater. The University adopts a systematic procedure for maintaining and utilising academic, research and physical facilities like laboratories, library, sports, computers and classrooms. The physical verification for labs is done regularly. The optimum working condition of all properties/ equipment on the campus is ensured through annual maintenance activities.

The university has the following policies in place which are available at <https://www.juit.ac.in/juit-policies>

- IT Policy
- Library Policy (Manual)
- Policy on Class Rooms
- Policy on Guest Rooms
- Policy on Laboratory Maintenance
- Sports policy, and various others

5.3.2 - Presence of Student Council and its activities for institutional development and student welfare

JUIT has a student council named as JUIT Youth Club (JYC) which is an extremely active body and has a number of Clubs and Committees under its domain. The extra co-curricular activities of the students are organized as major and minor events throughout the year. It is the body that widens student's view from academics to various fields such as sports, literary, cultural and technical and provides opportunities to explore them.

The various clubs of JYC are as under:

- Technical sciences, movies & photography
- Literary and debating
- Cultural and dance
- Sports
- Theatre and music
- Environment, ecology & health
- Fit India Campaign

The six committees constituted under JYC are "Events & Procurement", "Media & Publicity", "Disciplinary", "Registration and Hospitality", "Creative arts committee" and Finance Committee.

Apart from JYC, JUIT has also constituted various types of committees with student's representation across all the undergraduate and postgraduate programs.

These are named as Anti-ragging Committee, Hostel Advisory Committee, Student's Counseling Committee, Internal Complaint Committee, Complaints against Caste-Based Discrimination Committee, Gender Champion, Student body of IPR Cell, Differently-abled persons, Equal Opportunity Committee, IEEE Student Chapter, ACM Student Chapter, SIAM Student Chapter.

5.4 - Alumni Engagement

5.4.1 - The Alumni Association/Chapters (registered and functional) contributes significantly to the development of the institution through financial and other support services during the year

JUIT Wagnaghat values good student-teacher relationships. The University strives to keep track of its alumni who have graduated from the University to strengthen this connection. The University has a JUIT Alumni Cell (JAC) that connects them through various platforms such as Facebook, Almaconnect, LinkedIn, and Instagram. Facebook and Almaconnect accounts have more than 2500 connections.

The student executive body has a President, a Treasurer, a Public Relations Head, and a Media & Publicity Head. The student executive body then selects two volunteers from each department for the functioning of the cell.

JUITians are located worldwide, and many of them hold outstanding positions. They frequently contact our Training & Placement Cell to hire the students at their places. Many of our alumni are working as Researchers and Professors at institutions of repute.

The website and social media platforms of Alumni Cell serve as a vital bridge between the University and the alumni. Through these platforms, alumni receive updates about various activities conducted at the University. They can connect to their alma mater through this website. The alumni get birthday wishes on their birthdays once they register on the website.

GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

6.1.1 - The institution has a clearly stated vision and mission which are reflected in its academic and administrative governance

JUIT Wagnaghat offers an insightful environment to its students to confer the inclination for well-established learning. Under and Post-graduate students are urged to develop opportunities in thought and movement, majorly through project-based learning. Therefore, JUIT executes all its programs as per the stated Vision and Mission.

Vision: To become a centre of excellence in the field of IT and related emerging areas in education, training and research comparable to the best in the world for producing professionals who shall be leaders in innovation, entrepreneurship, creativity and management.

Mission:

M1. To develop as a benchmark University in emerging technologies.

M2. To provide a state-of-the-art teaching-learning process and a stimulating R&D environment.

M3. To harness human capital for sustainable competitive edge and social relevance.

The following councils have regulatory functioning:

1. The Governing Council, Executive Council and Academic Council are aligned to the UGC regulations as applicable from time to time. The Governing Council is the supreme and prime decision-making and governing body of the University.
2. The Executive Council is responsible for the general management and administration of the University.
3. The Academic Council is the academic body of the university that regulates all kinds of academic issues.

File Description	Documents
Upload relevant supporting document	View File

6.1.2 - The effective leadership is reflected in various institutional practices such as decentralization and participative management

The University rehearses and advances the culture of participative management in all its activities, such as administration, admission, student activities, curriculum development, research and sports. The University has given equivalent portrayal in various committees at all levels from Professors, Associate Professors, and Assistant Professors from different Departments.

The Governor of Himachal Pradesh is the Chancellor of the University. Shri Manoj Gaur, Executive Chairman of Jaypee Group of Industries, is the Pro-Chancellor of the University. The Vice-Chancellor is the Head and the Chief Operating and Academic Officer of the University. He presides over the Executive Council, Academic Council, and Finance Committee meetings.

The Vice-Chancellor is assisted by the Dean of Academic and Research and the Heads of Departments.

The Dean is the Head of all academic and research programs.

The registrar looks after the administrative activities of the University.

The Finance Officer performs other functions that may be assigned to him by the Executive Council or prescribed by the Statutes or Ordinances.

The Controller of Examination (COE) conducts the university examinations.

The IQAC chairperson and team monitor all academic, research, and other developmental aspects of JUIT. HODs look after all aspects of their respective departments.

6.2 - Strategy Development and Deployment

6.2.1 - The institutional Strategic plan is effectively deployed

The vision of the University is to become a centre of excellence in the field of IT and related emerging areas in education, training, and research to produce professionals who shall be leaders in innovation, entrepreneurship, creativity, and management. The following major areas are covered in the Strategic Plan:

- The university has adopted e-learning platforms like NPTEL, SWAYAM, COURSERA, Infosys Springboard, etc.
- Academic Departments have Professional and Minor courses available.
- The university organizes conferences, workshops and boot camps for the students, Faculty and Lab staff.
- Project-based courses with a focus on the publication of research papers and patent grants.
- Establishment of research culture through IEEE chapter, ACM and SIAM.
- To promote the spirit of entrepreneurship among students, the University has established a Technology Incubation and Entrepreneurship Development Cell (TIEDC).

TIEDC is supported by the Department of Industries, Himachal Pradesh, under the Chief Minister's Startup/Innovation Projects/New Industries Scheme. TIEDC provides mentoring and technological guidance to prospective Entrepreneurs. With support from the Himachal Pradesh government, students doing projects get a sustenance allowance of Rs. 25,000/-per month for one year for their projects.

6.2.2 - The functioning of the institutional bodies is effective and efficient as visible from policies, administrative setup, appointment and service rules, procedures, etc.

The University Council brings faculty and administration representatives together to discuss issues involving the entire University. University functions are defined by various policies mentioned in the JUIT 1st Statute.

The other policy-related documents are well-placed and available to different stakeholders.

The regulations and ordinances related to academics are in place.

The administrative setup is well established in JUIT. The university has a Governing Council, Executive Council, Academic Council, Finance Committee, Council of Institution-Industry Linkages and others.

Appointment: The policies regarding various appointments in the University are well defined in the JUIT Statute. The details are available on the University website.

The service rules and the related procedures are well-defined and shared with the university employees at the time of joining. The same is available as a Blue Book at the Registrar's office. The service rule book is accessible to employees whenever they want to refer to it.

JUIT has the following policies in place:

- Code of Ethics for Research
- Consultancy Policy
- Divyangjan Policy & Initiatives
- e-Governance Policy
- IT Policy
- Library Policy (Manual)
- Policy for Promotion of Research
- Policy on Class Rooms
- Policy on Guest Room
- Policy on Laboratory Maintenance
- Sports Policy

6.3 - Faculty Empowerment Strategies

6.3.1 - The institution has a performance appraisal system, promotional avenues and effective welfare measures for teaching and non-teaching staff

The University follows API (PBAS) as prescribed by UGC for faculty appraisal. The annual self-assessment form is to be filled out by each faculty member and staff member annually for every academic year. The concerned Head of the Department evaluates it. The Dean of Academics and Research and Vice-Chancellor also give their opinion on these forms. In addition, the promotion of the faculty members is based on a Career Advancement Scheme as per UGC guidelines. The non-teaching staff must also fill out their appraisal in the defined format and submit it to their respective HoD for recommendations

The following and many other welfare measures are available:

- EPF and gratuity benefits, as per government norms, are provided.
- Leave Travel Allowance (LTA) can be availed by all as per the rules.
- JUIT offers a 5% quota to the wards of its employees on a merit basis.
- The faculty members can avail of the full registration fee and/or 50% TA/DA (national/international travel)
- Paid leave for visits in connection with research work.
- The faculty members are entitled to 60 days of vacation, whereas other staff are entitled to 30 days of paid leave.

6.4 - Financial Management and Resource Mobilization**6.4.1 - Institutional strategies for mobilisation of funds and the optimal utilisation of resources**

The University has a well-strategized resource mobilization policy in place. The primary source of income for Jaypee University of Information Technology Waknaghat is fee collection from the students. Besides this, JUIT also aims to get funding from numerous sources, such as alumni and research funding agencies, by organizing national and international conferences, workshops, consultancy, philanthropy and Corporate social responsibility. These funds will be used to fund scholarships and develop infrastructure and facilities for academics and research. The University will also focus on getting funding from different agencies and companies CSR

for infrastructural development, expanding campus facilities and building and improving the institute's research infrastructure.

Funds generated from the above sources are utilized for the regular maintenance and development of the University. The University has well-planned strategies for enhancing funds mobilization:

- Increasing student strength
- Receiving research grants
- Enhancing consultancy
- Expanding Collaboration
- Improving Alumni participation.

The University ensures optimal utilization of the financial resources through periodic monitoring, internal and external auditing, cross-checking with requirements of funds for each department, etc. A finance committee is in place to ensure the optimal utilization of the funds.

6.4.4 - Institution conducts internal and external financial audits regularly

JUIT conducts internal and external audits on a regular basis to improve its controls and financial

systems. The University has also constituted the Finance Committee to prepare the Budget estimates and annual accounts of the University.

The annual reports and budgets are uploaded on the institute website, which is updated yearly. The Finance Committee recommends the appointment of an Internal Auditor; after that, the Governing Council gives final approval. M/S Ravi Rajan & Co. LLP, Chartered Accountants, 505A, 5th floor, D-4, Rectangle-1, District Centre, Saket, New Delhi-110 017, has been appointed as Internal Auditors.

An independent chartered accountant firm audits the university's accounts at the end of each financial year. The Finance Committee recommends the appointment of statutory Auditors; after that, the Governing Council gives final approval. M/s Dass Gupta & Associates, Chartered Accountants, B4, Gulmohar Park, New Delhi-110049, is the appointed Statutory Auditor. Statutory Auditor conducts audit as per provision of Income Tax u/s 10 (23C) (vi) of the Income Tax Act. The Statutory Auditor examines the balance sheet and the income and expenditure accounts for every financial year.

6.5 - Internal Quality Assurance System

6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes by constantly reviewing the teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals

The IQAC was set up in 2016. It has taken numerous steps to enhance the quality of teaching, learning, research and governance at the University.

The University has a Core Committee that reviews the collected data from all the departments and compiles the AQAR report, and seven Sub-Committees that have been given specialized roles related to curriculum aspects, teaching-learning & evaluation, Research Innovation and extension, Infrastructure and Learning resources, student support and progression, Governance leadership and

Management and Institutional Values and Best practices.

The main activities undertaken are as follows:

1. A two-week Induction program is conducted for the new entrants. It involves an introduction to the academic program, examination system, biometric registration, NAD registration, academic & disciplinary matters, medical facilities and an introduction to Jaypee Youth Club and its multifarious activities. It also includes a campus tour, a Screening of anti-ragging UGC films, and talks by eminent experts on motivation, training and placement, social entrepreneurship, etc.

2. The departments have designed the outcome-based course curriculum with well-defined course objectives and course outcomes followed by the contribution of Course Outcomes (COs) to the Program Outcomes (POs). The departments conduct board of studies meetings at regular intervals to review the courses.

6.5.3 - Incremental improvements made for the preceding during the year with regard to quality (in case of first cycle) Post accreditation quality initiatives(second and subsequent cycles)

The University documented rules and ordinances and made them

available on the website. For quality enrichment, different initiatives were taken in academics, research, relationships with stakeholders, student activities and placement, and professional and social activities.

The Academic (Teaching and Learning) subcommittee aims to audit the Institute's teaching and learning activities. Several measures taken are mentioned below:

1. To oversee the establishment, development and revision of learning objectives and outcomes of courses and programmes.
2. To oversee students' feedback, including pass-out students and their expectations from the programme/course.
3. To oversee the feedback of faculty considering different programmes/courses.
4. To ensure that study material/course files are maintained and updated on Moodle and on the faculty folder on LAN.

Academic Research

The Academic (Research) sub-committee audits the quality of research in the Institute.

Professional and Social Activities

Professional activities include consultation projects, conferences, workshops, FDPs and special courses and training for staff and students. Social activities in which clubs like Gender Champions Club, Omega Club and Rotaract Club organized many activities.

Admission related

In order to improve admission, a dedicated Admission Cell has been established with a designated admission cell coordinator.

INSTITUTIONAL VALUES AND BEST PRACTICES

7.1 - Institutional Values and Social Responsibilities

7.1.1 - Measures initiated by the Institution for the promotion of gender equity during the year

JUIT has a strong ethical ethos based on integration and holds the highest standards of conduct. It is ensured that women get equal

opportunities in participation. In JUIT equal opportunities are available to all people regardless of gender/race/class/color/creed/language/religion/political/other opinion/nationality/social- status/property/birth/other status. It's unique work culture/healthy traditions/ethos have led to the enrolment of female-students and women-staff. The university conducts many awareness-programsfor female-students and staff. Safety/security/well-being, along with gender-equity are the issues of prime concern to JUIT.

Salient-specific measures taken at the University level for women's participation

- Separate hostel for female students with 24x7 security guards.
- Availability of lady doctor and lady nurse in the campus.
- Campus is covered with CCTV camerasproviding a sense-of-security to women-students and staff
- Female-students are encouraged to take up outdoor sports like volleyball/adminton, etc. They are guided by a female sports-coach cum fitness-trainer
- Separate washrooms for female-students and staff.
- A professional female clinical-psychologist is available for counselingfree-of-cost.
- To provide an avenue for personality development of youth-students wanting to contribute to nation building JUIT has NCC for boys/girls.
- JUIT has "Internal Complaint Committee" for prevention/prohibition/redressal-of-sexual-harassment of women employees/students
- JUIT has "Committee for complaint against caste-base-discrimination" for handling issues related to caste-based abuse against women employees/students

7.1.9 - Sensitization of students and employees of the institution to constitutional obligations: values, rights, duties and responsibilities of citizens:

The institution sensitizes the students/employees to the constitutional obligations about values/rights/duties/responsibilities and constantly works to nurture them as better citizens of the country through various curricular and extra-curricular activities.

The university raises successful leaders among the students by conducting an election every year for the Jaypee Youth Club. The elected representatives are given leadership training.

Instilling constitutional commitments among students/university staff, the University included a few mandatory value-added courses such as Indian-Constitution, Values&Ethics etc.

JUIT establishes policies that reflect core values. A code of conduct is prepared for students and staff separately and everyone should obey the conduct rules.

The university encourages the participation of students in Sports and Games, and NCC strengthens nationwide bonds and relations.

In the year 2022-2023, there have been several activities and initiatives as mentioned below:

- Azadi ka Amrit Mahotsav
- HarGharTiranga
- Vigilance Awareness week

- Voters-Day
- Unnat Bharat Abhiyan
- NCC for boys/girls
- Drug abuse awareness/Cleanliness /Waste-Management Awareness Campaigns
- International Women’s Day
- Plantation drive/No-plastic campaign
- Run-for-unity
- Youth parliament

7.2 - Best Practices

7.2.1 - Describe one best practice successfully implemented by the Institution as per NAAC format provided in the Manual

1. Title of the Practice

Technology Incubation and Entrepreneurship Development Cell (TIEDC)

2. Objectives of the Practice

To provide an Entrepreneurial Ecosystem, inducing an Entrepreneurial mindset into youths to

contribute towards market expansion and job creation.

To promote linkage between the University-Industries-R&D Institutions- Financial Institutions.

3. The Context

Entrepreneurship programs have been a challenge in the Indian context due to a lack of information and awareness regarding the business prospects in various technology-driven sectors and the support systems for Startups/Innovative projects from different Government agencies.

4. The Practice

The vision and mission of the TIEDC are to aid in the growth of our society by enabling Entrepreneurs with integrity-sustainability and to encourage individual ability-creativity. TIEDC provides mentoring and technological guidance to perspective Entrepreneurs to harness their talents and apply the same to socially relevant projects and Startup ventures.

5. Evidence of Success

A total of 126 applications were received;

25 incubations completed;

3 are going on;

9 successful startups;

6 awards won by the persons associated with us

<https://www.juit.ac.in/tiedc-cell>

6. Problems Encountered and Resources Required

The university did not encounter any major problems in adopting and implementing this best practice.

7.3 - Institutional Distinctiveness

7.3.1 - Highlight the performance of the institution in an area distinct to its priority and thrust (within

a maximum of 200 words)

Student Support

(a) Fee Concession and Reservation for Military Wards

In JUIT, the relaxation in the fees for the military wards is being given since the academic year 2019-20. A 30% tuition fee concession to wards of serving and retired Armed Forces and paramilitary forces personnel for Undergraduate Programs and an additional 5 percent (30+5=35%) discount in tuition fees for wards of war widows is also given. For undergraduate courses here at JUIT, 10 percent of seats are reserved for such categories. In the year 2022-23, 42 students benefited with this scheme.

(b) Empowering Youth with Skill Sets

The Department of Biotechnology, JUIT, have a GoI-supported skill-development-program with objective to provide high-quality hands-on training in tools/techniques to biotechnology to make the young biotechnologist ready to take up jobs in industries/hospitals/medical-colleges/R&D-laboratories/diagnostic-laboratories. Also, faculty members of JUIT have been trained and recognized as Certified-Trainers by Skill-Council, India.

<https://www.juit.ac.in/skill-vigyan-project>

(c) DBT-Sponsored PG Program:

DBT-supported DBT-PG Program in Biotechnology is running at JUIT. GAT-B is an all-India Entrance Examination of bonafide Indian nationals for admissions to DBT-Supported PG programs in Biotechnology, at participating universities. Students have been placed in industries and some of them opted for higher studies after completing their M.Sc.

<https://www.juit.ac.in/gate-2020-bt>

7.3.2 - Plan of action for the next academic year

The National Education Policy (NEP) in India aims to transform Higher Education Institutions (HEIs) into centers of learning that offer multidisciplinary programs. The goal is to provide students with a comprehensive education that nurtures their overall growth and equips them to tackle the demands of the 21st century, while also keeping them rooted in Indian culture. There will be an amalgamation of diverse fields of study, which will allow students to explore

diverse fields and gain a broader understanding and knowledge. By embracing multidisciplinary education, HEIs in India can create a nurturing environment that encourages critical thinking, creativity, and problem-solving skills among students. Such an approach will help shape well-rounded individuals who can contribute effectively to society and excel in their chosen professions.

The University has also started working in line with the implementation of NEP under these areas and university is working to strengthen these areas in compliance with NEP:

1. The Evolution of University into a Multidisciplinary Hub
2. NAAC Accreditation, Academic Audit, and IQAC
3. The university has registered at ABC
4. Internationalization of education is already in progress as university established the International collaboration centre
5. Strengthening of Research and Development Cell
6. Offering Apprenticeship/Internship Programs, Employability Initiatives, Alumni Connect, and Industry-Institute Linkage
7. Strengthening Governance and Infrastructure for the Digital Age
8. Student-Centric Initiatives for Inclusive Education
9. Enhancing Faculty Skills for Multidisciplinary Education
10. Other details can be found at:

<https://www.juit.ac.in/nep-2020-cell>
