Expert Lecture on ‘Career Prospects in Biotechnology and Bioinformatics’

27th April 2024

On 27th April 2024, Dr. Rahul Shrivastava, Associate Professor, Department of Biotechnology and Bioinformatics was invited at Kendriya Vidyalaya, Jahoo Hills, Shimla to interact with Class XI and Class XII students of Medical and Non-Medical streams.

Dr. Rahul Shrivastava delivered a talk on ‘**Career Prospects in Biotechnology and Bioinformatics**’, in which he discussed about scope of Biotechnology in various fields including Human Health, Research and development, Agriculture and Various industries. He made the students aware that Biotechnology and Bioinformatics provide diverse areas of career and job opportunities with handsome package. He also discussed how Bioinformatics is an area with application of Computer Science in Biotechnology and how this field is revolutionizing the domains of Drug Discovery and scientific knowledge.

A total of about 40 students interacted during the session, who asked several questions to clarify their doubts on how to choose a career. Principal and Vice Principal of the School assured that they will surely bring their students to visit the laboratory and research facilities at Jaypee University of Information Technology, Waknaghat, Solan so that they may gain better understanding of science related research and career opportunities.
