Biz Quiz 22

Event: Biz Quiz 22

Date: 15th Sept `22 to 17th Sept `22

Attendees: Open to all

Platform: CL-10 & CL-11, LT-2 & LT-3, TIED-Cell

Poster:

Event Objective:

Biz Quiz 22 was organized for the first, second and third year students in pairs from

15th September 22 to 17th September 22 to promote interest and increase knowledge surrounding the topics such as entrepreneurship, businesses and the corporate world.

Event Description:

- **Day 1** - The first day of the event had 2 parts to the quiz. The 1st part was attempted by one team member from each team, and then the 2nd part was attempted by the other team member. The rounds were held online with the help of Google Forms and the quiz contained MCQ type questions. Qualification was based on relative marking as only top 25 teams were allowed to participate in the next round.
- **Day 2** - The second day of the event again had 2 parts. Top 25 qualifying teams from the previous day were made to write the quiz which consisted of one word answers and was conducted via writing on a sheet of paper. The questions were displayed on a projector and the total score was calculated by combining the scores from both the parts. Top 9 teams were selected as finalists to participate in the final round.
- **Day 3** - Final round was divided into 4 parts, which was held in the TIED-Cell on the final day, which hosted 9 teams.
 - The first round **Hit or Miss** had questions thrown to each team and every correct answer gave 10 points and took away 2 points.
 - The second round **Buzz Flash** had a total of 25 questions which were dictated to all the teams and the first one to press the buzzer was given the chance to answer. Every correct answer gave 10 points and every wrong answer took away 5 points.
 - The third round **Rapid Fire** had a questionnaire for each team consisting of 10 questions each which was to be answered in the time span 1 minute. Every correct answer gave 10 points and there was no negative marking.
 - The fourth round **Bounce or Pounce** in this each team got one question and if they answered correctly 10 points were awarded without negative marking, but if they answered incorrectly or decided to dodge the question it would travel through all the teams till one gives the correct answer or none. Once the question bounces then for the correct answer awards 5 points and for incorrect subtracts 5 points.

Event's Benefits:

Participants did thorough research on topics related to business, finance, entrepreneurship and many such more domains. There were questions like guess the personality, guess company from tagline, guess company's logo and many more. This improved their general knowledge and raised their interest in the same.

Organizers also benefited from the event, keeping aside the management and public speaking skills, curating questions made the question setters go through hundreds of facts and new information which increased their share of knowledge too.
