Workshop on Graphic Designing

Over 25 students of JUIT stepped away from their daily work last Tuesday, 6th March' 2018, to take part in a very resourceful and informative workshop on Graphic Designing using Adobe Photoshop and Adobe Illustrator. A workshop for which whole college was excited about was unexpectedly successful, students enjoyed every minute of the workshop and came out of the room after learning something.

Shikhar Srivastava, who is a B.Tech. 2nd year student at JUIT was the featured speaker, inspiring students to learn something good from every little experience and making them believe that there is lot more then bookish studies. Shikhar encouraged the attendees to extend their limits and learn something that will help them in their future. He gave the instructions so well that the students were able to match with his pace of speed and gained maximum amount of knowledge from him.

The emphases were laid on the basics of graphic designing, photo retouching, tool selection, vector graphics etc. In the last hour, he tried to answer all queries of students and finally concluded the workshop by sharing some internship opportunities in the field of Graphic Design.
