Waknaghat (H.P.) - 173234**

Event: TIEDC Orientation for the first year students of JUIT.

Date and Time: 02 September, 2022 (9:30 AM - 10:30 AM)

Attendees: 1st year students, TIEDC members and JUIT faculty

Platform: Lecture Theatre - 2

Event Objective:

The orientation focused on enlightening students how the TIEDC body of JUIT helps them as a student to innovate ideas and implement them.

Event Description:

Dr. Ashish Kumar – Head of the Department, Civil Engineering and Chairperson, TIED Cell, aware the students that the aim of the TIED Cell is to provide an entrepreneurial ecosystem in the university. He informed the students that in May 2017, the university signed an MoU with the department of industries under CM Startup scheme to promote startup activities. Till date more than 20 ideas have been incubated by the cell and many of them are running their venture successfully. For the development of the startup ecosystem, to upgrade the students and incubatees with different skills required for startup, and to nurture ideas from young brilliant mind, throughout the year, TIEDC organizes different events like E-Summit, Hackathon, Vicharna, Startup Simulators, webinars, and workshops. Dr. Ashish also mentioned how the department has been a major aid to students by acting as a point of contact between the government and the startups.

Event's Benefits:

The outcome of the orientation as a whole was that the students, knowing that the resources and mentorship being provided by the department, the students seemed to be keen and ardent about start-ups and development in technology.
