

## LinkedIn-MTV GET A JOB Internship Fair

LinkedIn-MTV Get A Job is a platform to help students land an internship with some of the big companies in India. The Technical Incubation and Entrepreneurship Development Cell (TIEDC) of JUIT organized this event in the JUIT in collaboration with MTV India and LinkedIn on 22 Jan 2020. The event was hosted by Krissann Barretto, an Indian actress and model. She conducted some interviews and interactive sessions with the students in order to make the event more fun and less boring. The interview questions were about the dream jobs of the students who are extremely career oriented. The students were entertained by some games as well to lighten the mood. The most forthcoming answers and the winners of the games were awarded with some goodies. Besides this, the students of JUIT were asked to enroll themselves in these job opportunities provided by them. The campaign was a huge success. The students freely discussed about their future plans and cleared their doubts. More than 200 registrations from the students were received. All in all, the students easily visualized themselves in proper job future and the path to achieve this goal.
