TIEDC PRESENTS

INCUBATION DRIVE
FOR THE STUDENTS OF JUIT

Idea Research Creativity Target

GET A CHANCE TO START YOUR ENTREPRENEURIAL JOURNEY WITH US!

RESOURCES AVAILABLE

- Incubation space
- Monetary Support
- 1 on 1 Mentorship
- Ideate & turn yourself into a startup

Event Objective:

The Workshop was held to educate and inform students about the benefits, opportunities, and challenges of the startup ecosystem. It was an awareness drive

with the motive of informing and promoting people to sign up and work on startups in association with the HP Government.

Event Description:

The event started with a briefing about the startup culture and what participants can expect from this drive. Incubation space, monetary support, one on one mentorship, and a chance to ideate and develop the idea into a startup were some of the perks of the event that were discussed.

After the briefing, participants, with the will to be entrepreneurs, set onto ideating and developing their startup ideas.

The event came to an end with most of the ideas getting registered in the government scheme under which if they get approved, the participants will receive a sum of 25,000 Rs. every month till a year to help develop their ideas.

Event's Benefits:

The sensitization workshop on the startup ecosystem provided valuable insights and information to individuals and organisations interested in supporting or participating in the ecosystem.
