

Basic Microbiology Workshop at Govt. Degree College, Theog, Shimla – 09th November 2024

A team from Jaypee University of Information Technology (JUIT), consisting of Prof. Sudhir Kumar, Dr. Kaushal Kumar, and Dr. Ankush Tanta visited Govt. Degree College, Theog, Shimla, to conduct a workshop on Basic Microbiology Techniques. The event was organized with the support of Dr. B. S. Thakur, the Principal of the College, and Dr. Nidhi, Faculty of Science.

During the workshop, B.Sc. students gained hands-on experience in essential microbiological tests, including the KOH String Test for bacterial classification and the Catalase Test. The interactive session encouraged active participation, with students asking questions and engaging in discussions about the practical applications of microbiological techniques.

Additionally, the benefits of the DBT-GAT B program were explained to both students and faculty, providing valuable information about higher education opportunities

As a token of appreciation for efforts, the Principal presented the JUIT team with a Letter of Appreciation, acknowledging the valuable contribution to the academic development of the students.
