

# JAYPEE UNIVERSITY OF INFORMATION TECHNOLOGY

## LEARNING RESOURCE CENTER (LRC)

This is with reference to the meeting held on 6<sup>th</sup> November 2017 about "Implementing Digital Action Plan" as per the mandate of Minister, Human Resource Development, Government of India.

The LRC has been entrusted with the responsibility of looking after Point No.8 - 'Joining the NDL' and Point No.9 - 'Digitizing the Libraries' (Point no. 9) of the action plan 17-by-17.

### ACTION PLAN 17-BY-17 – LRC OF JUIT

#### Joining the NDL (Point No.8):

##### - National Digital Library Status at JUIT

1. The JUIT has already registered with NDL.
2. The link of NDL portal has been placed at homepage of library website.
3. The Library team has been encouraging faculty, staff and students to get registered for NDL.
4. The special drive among students to provide NDL orientation cum support for registration process has already been initiated by the library.
  - a. The JUIT statistics of NDL as of 20<sup>th</sup> November 2017:
    - i. Number of users LRC registered on NDL portal: 517
    - ii. Total number of active users: 166

#### Digitizing the Libraries (Point No.9):

##### - Heading towards digitization process:

1. By being a member of NDL, the JUIT has been getting online access to 'World Book Library' and 'South Asia Archive' from NDL/INFLIBNET initiative.
2. An Institutional Repository (IR) of the university is being created by using dspace open source software, which is currently accessible on Intranet at <http://172.16.73.104:8080/jspui/>.
3. The JUIT affiliated publications such as articles, project reports, theses, annual reports, newsletters etc are being collected (digitized) in electronic format so that these can be mounted on IR for access/use.
4. The IR server needs to be connected through independent IP so that it can be shared with NDL users across country.
5. The subscription of scholarly literature in electronic form is being preferred.
6. The University has already acquired NPTEL course files and soon will be hosted on independent high capacity server for academic and research use.
