Solan, 173234

Vigilance Awareness Week

Event: Vigilance Awareness Week

Date: 2-3 November 2023

Organised by: Koshish Club JYC

Venue: JUIT Campus.

During the Vigilance Awareness Week, the Koshish Club of JYC at Jaypee University of Information technology organised a two-day event aimed at promoting awareness about the importance of vigilance and integrity in society.

On the first day, a spirited walkathon was conducted, commencing from the Vivekananda statue and concluding at the university's basketball court. This event gathered people, including faculty coordinator of Koshish Club Dr. Raj Kumar, student club coordinators of JYC, enthusiastic volunteers, and even children from the local neighbourhood, fostering a sense of community involvement.

The second day of the event saw an impactful street play, strategically designed to highlight the pressing issues related to vigilance and anti-corruption measures. The play was skillfully performed by the children themselves, infusing the event with a sense of youth-driven purpose and creativity. The motive behind these events was to instil awareness about the significance of vigilance, transparency, and ethical conduct in our daily lives, emphasising the role of individuals in combating corruption.

Both days' events commenced at 5:30 PM, capturing the attention of a diverse audience, from students and faculty to the local community. The proactive participation of the Koshish Club, faculty, and local children demonstrated a collective commitment to upholding the values of integrity and transparency in society. This two-day event stands as a shining example of how youth initiatives can play a pivotal role in fostering a culture of vigilance and accountability in our communities, ultimately contributing to a better and more ethically sound society.
