Dear Colleagues,

There will be a curriculum revision meeting on Thursday (9th Nov 2017) at **10.pm** in my cabin.

As per the directions of the Hon Vice-Chancellor, we have to make a curriculum revision of the present curriculum of 195 credits with the following points in view

1. Total Credits : 195
2. One minor project in the curriculum: 3 credits (or 4 credits? or 5 credits? let me have your inputs or this can be your choice)
- 2a. Major Project (No. of credits, your choice)
3. Industrial tour: 1 or 2 credits (Your choice)
4. Electives starting from 5th Semester
5. You also have to submit an MTech curriculum with subjects only in the first year and project only in the second year. Credits to be same as earlier.

Please come with a print out of both the curricula (Shruti) and your ideas.

Regards,

Sunil Bhooshan
