<u>**Specialization**</u>

Main Area:

Structural Engineering

Research Interests:

Design and Analysis of RCC Structures, Design and Analysis of RCC Structures, Recycled Aggregate Concrete

<u>**M.Tech & B.Tech Project Topics (2022-2023)**</u>

1. Durability Analysis of Recycled Aggregate Concrete

2. Analysis of Underground Structures

3. Analysis of Shear Lag Concentration problem in wide Beams

4. Labor Productivity Estimation in Construction Projects

5. Design and Analysis of Structures for Impact Loadings

6. Modeling and Analysis of Blast Load on structures.
